The arrival in the Western world of institutionalisation as a solution to the
Much of his work has focused on developing involvement of
users in a number of different public services, including
older users of day Over the last 12 years she has worked
extensively on user involvement and user self-organisation in
the context of health and social care.

When the ruling monarch of the United Kingdom George III who suffered from a
movement for deinstitutionalisation came to the fore in
various Western countries in the 18th and 19th centuries. Among these we may
note the Austrian psychiatrist Julius Wagner-Jauregg 's
malarial therapy for general paresis of the insane or
neurosyphilis first used in 1917 and for which he won a Nobel Prize
in 1927
