In addition, the banking system may not need to hold large amounts of liquid assets given that the Federal Reserve was established to function as the lender of last resort when liquidity shortages arise. Finally, bail-in tools are to be implemented to ensure the orderly resolution of failing banks. It is the outcome of intensive discussions among a task force of current and former senior central bank officials from EMDEs, led by the two of us.

On September 12, the BCBS established the day liquidity coverage ratio requirement. The reported reasons for implementation delays are: concerns over the pace of implementation in other jurisdictions affecting the level playing field ; the complexity of the standards or difficulties in interpreting and transposing them

into domestic rules ; and operational challenges for banks e.
